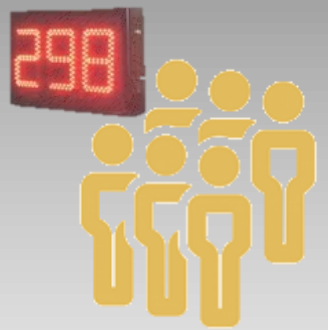
How can EGOpro Social Distancing help malls, business companies and public offices?



HEAD-COUNT:

- ✓ Counts how many people enter and leave the place in real-time.
- ✓ Stop access when maximum number of people inside is reached.
- ✓ It allows to create internal areas, within the place, where you can count people

How can EGOpro Social Distancing help malls, business companies and public offices?

ALARMS

VISUAL AND SOUND
SEND ALERT TO SECURITY
(txt, email)

NO GATHERINGS:

The system signals when the maximum number of people allowed in a limited area has been exceeded.

Eg: *The alarm sounds when a third person arrives at the coffee machine*.

TIME LIMITS:

The system signals when the person remains within the limited area more than the time allowed

Eg: *If the person stays more than one hour inside the supermarket, the alarm is activated.*

How can EGOpro Social Distancing collect and manage these data?

SENSORSI - Site

EGOpro Sensors, that can detect people, are installed:

- ✓ At the entrances and the exits of the place.
- ✓ In different areas that must be controlled.

TAG - Personal

Each person is provided with a tag, to be returned before leaving the place.

How can EGOpro Social Distancing manage accesses, attendance and alarms?

EGOpro Keystone

It's a **WEB Based, Multi-site software** that can:

- ✓ Manage the number of accesses and exits from the limited areas;
- ✓ Management and configuration of alarms and setting of security and safety parameters;
- ✓ Choice and setting of different type of alarms.
